Visit to National Zoological park

Report

The Department of Zoology organized a visit to National Zoological park, on 4th February, 2023 for the students of first year, as per the practical syllabus (S.No. 7) of the paper, Nature and Wildlife Studies, Paper Code: 2234001002. The students were accompanied by Dr Pranav Singh who briefed the students about the purpose and importance of the visit. It provided the students an opportunity to freely explore the wildlife and understand their distribution, migration pattern and habitat. The students also learnt the different prospects of ex-situ conservation of wildlife. After the successful visit all the students submitted the visit reports.

Excursion trip to Humanyun's private library, Qila-i-kuhna mosque and the archaeological museum

Report

ATEET, the History Association, Department of History, Swami Shraddhanand College organized a one day excursion trip on 1st March 2023. This trip was organized under the supervision of Mr. Ranjan Kumar and Dr. L. B. Swarnkar. About 45 students from history honours and programme courses had participated in this trip. The students were accompanied by Dr. Badnath Awasthe and Dr. Basant Swarnkar (Deputy Superintending Archaeological Survey of India, Delhi). Their presence provided a very different perspective and enabled the students to visualize the history on this ongoing excavation site visit. The trip covered the areas around Purana Qila visiting a number of monuments and sites like Humanyun's private library, Qila-i-kuhna mosque and the archaeological museum.

Feedbacks

Report on Excursion trip to Purana Qila Date: 1st March 2023

Our purana qila excursion was too wonderful and knowledgeable... I saw live excavation first time in life. and which is unforgettable. I'm very grateful to our college history department and our teachers for this wonderful trip. we've learnt a lot of things during this excursion which is going to be memorable...

We went on our second excursion trip it was a great opportunity for us to know and enhance our knowledge it was great experience to know how it happens it was a really great experience for us it's the first time to see how our ASI works and search our historical antiques etc and we get the lecture from archaeology teacher

It was nice trip and we are thankful for our history department and also want to travel new place for more information and learning something new

Our last trip was good and memorable where we got to learn and have fun with our friends, I am very thankful to my history department which gave us an opportunity to see and learn physically historical things along with studying theory.

It was a great experience on that trip and we learned many historical things and i hope, in future we visit such places again.

The excursion was really awesome, especially because of my fellow mates. I enjoyed it a lot, the garden was truly beautiful. I learned a great deal about Mughal architecture and medieval Indian history, particularly during the Mughal era. We had loads of fun during the journey.

It was a great trip .. well organised by Ateet. Got to learn a lot about history

For more interesting more trips and history department help students the relevance or what we're studying by. It enhances the significance of the

Recent trends in Chemical Sciences and Sustainable Energy

Report

The Department of Chemistry organized the 1st International Conference on "Recent trends in Chemical Sciences and Sustainable Energy" on 24th-25th March 2023 in association with NIT, Delhi. The conference covered the crucial problems of current and future world; the speakers presented latest initiatives in energy, environment remediation, material sciences, nanotechnology, education, and health. The conference had two keynote addresses, 18 invited lectures, 30 oral presentations and more than 100 poster presentations at different technical sessions.

About National Institute of Technology Delhi

National Institute of Technology Delhi (NIT Delhi) is a premier public technical autonomous institution located in New Delhi. NIT Delhi is an institute of national importance and aims to provide instruction and research facilities in various disciplines of Engineering, Science and Technology, Management, Social Sciences and Humanities for advanced learning and dissemination of knowledge. The mission of NIT Delhi is to produce human resources, who are creative, competitive and innovative with high intellect and ethical values.

About Swami Shradhdhanand College

Swami Shradhdhanand College (SSNC), a constituent College of Delhi University, was set up under the patronage of Central Govt. It is a co-educational institution and imparts instruction in various subjects at both undergraduate and postgraduate level. It is equipped with quality teaching and operational laboratories and adequate library facilities.

About the Conference

The prime objective of the RITCSSE-2023 is to serve as a forum for the exchange of ideas and knowledge among individuals working at different frontiers of chemical sciences and sustainable energy. It will provide a platform for the researchers, scientists, professors from academia and industry participants to discuss their research in the form of keynote addresses, lectures, discussions, and presentations on cutting-edge research and technology. It will further provide an opportunity for the participants to create networks among the peers that can strengthen or facilitate interdisciplinary research.

Conference Objectives

- Providing a unique opportunity to meet colleagues, scholars, eminent scientists, industrialists and experts from various organizations to exchange knowledge and ideas on the recent trends in chemical sciences and sustainable energy.
- To serve as a venue for the growth of new ideas leading to novel possibilities for sustainable development.
- Promoting collaborative endeavours and interdisciplinary linkages to meet the global challenges.
- Providing a platform to explore newer fields in the knowledge of research including sustainable energy, nanotechnology and material chemistry.
- To identify innovative solutions towards a path of sustainable and sustainable energy.
- Inspiring young minds towards such noble ventures that positively impact the society at a future point of time.

Conference Themes

- Environment and Sustainable Energy
- Energy Production, Conversion and Storage
- Sustainable Food System
- Hydrogen Fuels
- Smart Materials
- Porous Materials
- Composite Materials
- Semiconductor Materials
- Nanomaterials
- Catalysis
- Biomaterials
- Molecular Machines

Towards Excellence in Science in India in the 21st Century: A Road Map

Report

An innovative motivational talk was organized by Department of Chemistry, Swami Shraddhanand College on 21st April 2023. Prof. A. K. Bakshi, Vice Chancellor, PDM University, Bahadurgarh delivered the keynote lecture on 'Towards Excellence in Science in India in the 21st Century: A Road Map'. As the part of lecture, students become familiar with the current scientific research and its application to the society. They learned certain ways of facing challenges in chemistry. They were also introduced to the use of ICT tools in today's teaching and learning method. Concept of MOOCs, its functioning and the role it is playing in present education system.
