About the Institution

Swami Shraddhanand College is one of the premier institution of higher education in the University of Delhi, located at Alipur, Delhi. The College was established in 1967, with the aim of providing higher education to the rural students. The college has completed 55 years of its existence. College offers various courses in Science, Arts and Commerce and has qualified teaching staff. It has well equipped laboratories, computerized library facilities and extensive playgrounds. College has been re-affirming its commitment to provide quality education to the student community.

ABOUT THE COURSE

Mushroom cultivation is one of the promising and profitable enterprises that has gained popularity around the world. They are packed with essential vitamins, minerals and proteins. Mushroom cultivation plays an important role to improve the strength and livelihood of people through nutritional, medicinal and economic contributions.

India is largely an agricultural country generating about 350 million tons of agro-waste annually. Mushrooms are cultivated on wheat and paddy straw and several other agro-wastes. This not only helps recycle agro-waste but also fills the nutritional gap prevalent among large population of India.

This add on course will be of immense benefits to students who wish to adopt mushroom cultivation as a means of self-employment.

Experts with several years of experience in growing mushrooms will deliver lectures in online mode. There will be training in the laboratory to raise the spawn and grow mushrooms on different agricultural wastes.
