Swami Shraddhanand College, University of Delhi

Prof. Parveen Garg
Principal, SSNC

About the Institution

Swami Shraddhanand College is one of the premier institutions of higher education in the University of Delhi, located in the rural suburbs of the city. From the humble beginning in the Gandhi Ashram building in Narela, the College has completed 54 years of its existence. It is equipped with qualified teaching staff, specialized laboratories, computerized library facilities and extensive playgrounds. The College has been re-affirming its commitment to provide quality education to the student community.

About the Course

Information and Communications Technology (ICT) is technology that is used to handle communications processes such as telecommunications, broadcast media, intelligent building management systems, audiovisual processing and transmission systems, and network-based control and monitoring functions.

In this add-on course for students, the experts in the field of Computer science and Information technology will teach the concepts and applications of ICT. This 30 hours course is designed to help you understand the basics of computing technologies prevalent in today's digital world. It also aims at making the students more confident with learning new technologies and enhance their computer and Information Technology skills.

Topics shall include (but not limited to) Document preparation, Data handling, Preparing presentations and posters, Hindi fonts and typing, Data analysis using Python, Mathematica, Bioinformatics, Online educational resources and virtual labs, Plagiarism checking, Social media ethics and Cyber security, Some new and emerging technologies in Computer Science like Artificial Intelligence, Machine learning, etc.
