

Swami Shraddhanand Ji

Swami Shraddhanand (22 February 1856 – 23 December 1926), also known as Mahatma Munshi Ram Vij, was an Indian Independence activist and an Arya Samaj sannyasi who propagated the teachings of Dayananda Saraswati. This included the establishment of educational institutions, like the Gurukul Kangri University, and played a key role on the Sangathan (consolidation and organization) and the Shuddhi (re-conversion), a Hindu reform movement in the 1920s.

Swami ji was born on 22 February 1856 in the village of Talwan in the Jalandhar District of the Punjab Province of India, was the youngest child in the family of Lala Nanak Chand. He was a Police Inspector in the United Provinces (now Uttar Pradesh) and was administered by the East India Company. His given name was Brihaspati Vij, but later he was called Munshi Ram Vij by his father, a name that stayed with him till he took sanyas in 1917, variously as Lala Munshi Ram Vij and Mahatma Munshi Ram.

In 1902, he established a Gurukul in Kangri, India near Haridwar. This school is now recognized as Gurukul Kangri University. Shraddhanand ji left Gurukul in 1917 to become an active member of the Hindu reform movements and the Indian Independence movement. His illustrious life was snapped on 23 December 1926, when he was assassinated by one named Abdul Rashid. Today, the 'Swami Shraddhanand Kaksha' at the archaeological museum of the Gurukul Kangri University in Haridwar houses a photographic journey of his life.

A statue of him was placed in front of Delhi Town Hall after independence, replacing a statue of Queen Victoria.

About Institute

Swami Shraddhanand College, a constituent College of Delhi University, is run under the trusteeship of Delhi Govt. It is a co-educational institution and imparts instructions in various subjects at both undergraduate and post-graduate levels. Situated in the sylvan ambience of North Delhi, the College has completed 55 glorious years of its existence. From the humble beginning in the Gandhi Ashram building in Narela, the college is now one of the premier institutions of Delhi University. It is equipped with qualified teaching staff, specialized laboratories and adequate library facilities.

The college has extensive playgrounds, which provide an excellent opportunity for budding sportsmen and athletes to participate in various games and sports and to improve their skills and capabilities. Scholarships and freeships are given to deserving students. Merit of students in academic as well as extra-curricular activities is acknowledged through awards and prizes.

The students' societies/associations play a vital role in improving the academic environs of the college and skill enhancement. For each subject, there is a society to stimulate the interests of the students in the subject and establish its interlinking with the society at large. The societies/associations sponsor lectures, seminars, exhibitions etc., and undertake programs and activities to make the subject more interesting and more relevant for societal needs.

Department of Physics

The Department of Physics, Swami Shraddhanand College, was established in 1980. The course that was introduced was B.Sc. (General) Physical Sciences. The B.Sc. (Honors) course came in 1997. Every year about 40 students take admission in B.Sc. (Hons) Physics and more than 110 students in B. Sc. Physical Sciences. Today, it boasts of more than ten highly qualified faculty members, with an equal number of highly trained technical staff. Faculty members carry out fundamental and advanced research on contemporary topics in science disciplines like material and condensed matter physics, high energy physics, plasma physics, and theory and computational physics. There are four well-equipped, spacious laboratories so that all students get enough space for practical work. The students who pass out from here get admissions to highly reputed institutions and are making a name for themselves the world over.

Department of Sanskrit

The Department of Sanskrit was established in the year 1967 at Swami Shraddhanand College, University of Delhi. It offers a myriad of courses like UG, PG, M.Phil., Ph.D., inter alia. The department is endowed with qualified faculty with Ph.D./Post-doctoral research experience from esteemed institutions and is involved in research activities and regular teaching. The department is open for interdisciplinary courses. It is also equipped with all academic and infrastructure support at par with the global standards. The faculty takes immense pride in the achievements and accolades of its diverse alumni and students, stimulating growth and diversification of the department and that of the discipline holistically recognized by the different learning bodies and research institutes in different states of the country.

Co-curricular activities are the building blocks of a student's personality. The Department of Sanskrit has organized 16 National Seminars across various platforms on a range of relevant and insightful topics. 'Sanskrit Sangosti' is a student enrichment program organized by the department for the past 12 years which is presided over by eminent academicians. The faculty at the department is fully committed to making teaching inclusive and upholds the 'ease of learning' practice through innovative teaching methods like smart class by audio video, projector along with skill development programs.

National Education Policy (NEP) 2020

An education system rooted in Indian ethos that contributes directly to transforming India, that is Bharat, sustainably into an equitable and vibrant knowledge society, by providing high-quality education to all, and thereby making India a global knowledge superpower.

The curriculum and pedagogy of our institutions must develop a deep sense of respect towards the fundamental duties and Constitutional values, bonding with one's country, and a conscious awareness of one's roles and responsibilities in a changing world. To instill a deep-rooted pride in being Indian, not only in thought, but also in spirit, intellect, and deeds, as well as to develop knowledge, skills, values, and dispositions that support responsible commitment to human rights, sustainable development and living, and global well-being, thereby reflecting a truly global citizen.

The aim will be to increase the Gross Enrolment Ratio in higher education including vocational education from 26.3% (2018) to 50% by 2035. The policy envisages a broad-based multi-disciplinary holistic education at the undergraduate level for integrated, rigorous exposure to science, arts, humanities, mathematics and professional fields having imaginative and flexible curricular structures, creative combinations of study, integration of vocational education and multiple entry/exit points. A holistic and multidisciplinary education will help develop well-rounded individuals who possess critical 21st century capacities in fields across the arts, humanities, languages, sciences, social sciences, and professional, technical, and vocational fields; an ethic of social engagement; soft skills, such as communication, discussion and debate; and rigorous specialization in a chosen field or fields. Such a holistic education shall be, in the long term, the approach of all undergraduate programs, including those in professional, technical, and vocational disciplines.

The undergraduate degree will be of either 3 or 4-year duration, with multiple exit options within this period, with appropriate certifications- a certificate after completing 1 year in a discipline or field including vocational and professional areas, or a diploma after 2 years of study, or a Bachelor's degree after a 3-year program. The 4-year multidisciplinary Bachelor's program shall be the preferred option since it allows the opportunity to experience the full range of holistic and multidisciplinary education in addition to a focus on the chosen major and minors as per the choices of the student. An Academic Bank of Credit (ABC) shall be established which would digitally store the academic credits earned from various recognized HEIs so that the degrees from an HEI can be awarded taking into account credits earned.

A number of initiatives will be taken to ensure optimal learning environments are created that are engaging and supportive, and enable all students to succeed. All institutions and faculty will have the autonomy to innovate on matters of curriculum, pedagogy, and assessment within a broad framework of higher education qualifications that ensures consistency across institutions and programs and across the ODL, online, and the traditional 'in-class' modes. HEIs shall move to a criterion-based grading system that assesses student achievement based on the learning goals for each program, and also move away from high-stakes examinations towards more continuous and comprehensive evaluation.

Universities and colleges will set up high-quality support centres and will be given adequate funds and academic resources to encourage and support students from socio-economically disadvantaged backgrounds. Professional academic and career counselling will be available to all students, as well as counsellors to ensure physical, psychological and emotional well-being.

The following objectives of NEP are kept in perspective while framing UGCF:

1. To promote each student's holistic development in both academic and non-academic spheres.
2. To provide flexibility to students so that learners have the ability to choose their learning trajectories and programs, and thereby choose their paths in life according to their talents and interests.
3. To eliminate harmful hierarchies among disciplines/fields of study and silos between different areas of learning; multidisciplinary and holistic education to ensure the unity and integrity of all knowledge.
4. To promote creativity and critical thinking and to encourage logical decision-making and innovation; to promote ethics and human & Constitutional values
5. To promote multilingualism and the power of language in learning and teaching.
6. To impart life skills such as communication, cooperation, teamwork, and resilience.
7. To promote outstanding research as a corequisite for outstanding education and development.
